

ROBUST | A Wall-Mounted Baby Care Station For Public Spaces

Where? Restaurants – Hotels – Recreation Facilities – Department Stores -Churches – Libraries – Museums – Waiting Rooms – Hospitals – Child Birth Departments – Petrol Stations – Airports – Railway Stations – Child Care Centers – Private Homes etc.

SWEDISH DESIGN AND QUALITY

Nursing table Robust was invented about 40 years ago and since then it has been available on the Swedish market. It can be found all over Sweden and also in many European countries. It is made in Sweden and certified according to the standard EN 12221.

GAS SPRING

Since the table is supported by a gas spring, it can easily be put up and down with one hand. When it is put up it is automatically locked in place by a magnet.

DIMENSIONS

Width: 660 mm, Height: 780 mm,
Depth closed: 200 mm, Depth open: 770 mm

MATERIAL

The side members, the wall studs, the shelves and the top are made of lacquered beech or oak. The table is laminated or melamine faced and fitted with a cushion. The hinges are made of stainless steel.
